

NODE 4

Node 4 is the ideal solution for retail store size of 800 - 1200 square feet. Supporting up to 4 cameras, Node 4 is able to run up to 4 video analytics concurrently and store up to 30 days of video footages. All analytics data and event videos are synced to our hosted VAaaS cloud and you can review it whenever you need. Node 4 supports all of the current business and security intelligence analytics available, with more innovative analytics coming into our analytics store soon.

BUSINESS INTELLIGENCE ANALYTICS

PEOPLE COUNTING

Quantifies store traffic to measure sales conversion rate, and/or optimize staff allocation

AUDIENCE PROFILING

Breaks down customer demographics, making selling more targeted

CROWD DENSITY

Tells you areas in your store with greater activity, increasing visibility of promotions

HUMAN TRAFFIC FLOW

Tracks visitors' paths, to best attract their attention through careful product placement

AUDIENCE ATTENTION

Measures the attention captured and held to know the effectiveness of in store promotions

SECURITY INTELLIGENCE ANALYTICS

FACE INDEXING

Captures and indexes faces to reduce investigation time in case of theft or loss

INTRUSION DETECTION

Allows defining of high security zones, and alerts you when intruders are detected

PERIMETER DEFENSE

Prevents unwanted movements and alerts you if specific boundaries are crossed

LOITERING DETECTION

Detects loitering activities by tracking the amount of time visitors spend in an area

COUNT LIMIT DETECTION

Allows limiting of the number of visitors in an area and alerts you if that number is exceeded

CAMERA TAMPERING

Ensures that cameras are working, by alerting if views are blocked or out of focus

BUSINESS

The KAI Business Intelligence Analytics allow you to better target customers, improve store layout and display, forecast your merchandising and control your inventory.

SECURITY

The KAI Security Intelligence Analytics detect and trigger alerts of potential threats, enabling immediate response and hence enhancing security.

VIDEO ANALYTICS
AS - A - SERVICE

A KAI Square Business Product

SPECIFICATIONS

Included Per Set	Node 4 x 1pc IP Camera x 4pc PoE Switch x 1pc Accessories
Form Factor	Bare bone
Operating System	Linux
CPU	Intel Dual Core Celeron 1.1GHz
Memory	4GB
No. of Supported Cameras	4
No. of Concurrent VCAs	4
No. of Supported VCA	Business Intelligence: <ul style="list-style-type: none"> ▪ People Counting ▪ Audience Profiling ▪ Crowd Density ▪ Human Traffic Flow ▪ Audience Attention Security Intelligence: <ul style="list-style-type: none"> ▪ Intrusion Detection ▪ Loitering Detection ▪ Perimeter Defense ▪ Count Limit Detection ▪ Camera Tampering ▪ Face Indexing
Storage	Storage Duration: 30 Days 1 x 2.5" SATA II 1TB
Supported Resolution	<u>Recording</u> VGA / H264 / 30fps <u>Live view</u> QVGA / H264 / 30fps
Network Interface	Support IEEE 802.11 b/g/n Gigabit LAN port
Working Environment	0 - 40 celsius 10-90% R.H.
Certification	CE/FCC CCC (POWER)
Power Supply	Input : AC 100 -240V
Dimension	190x135x25 mm
Net Weight	449g

-  **H.264** High Profile / MJPEG Dual Compression
-  **Noiseless** for a more enjoyable working environment
-  **Tiny** in size to reduce space requirements
-  **Energy Saving** for better performance with lower power consumption
-  **Support iPhone® and Android® streaming** for monitoring at anytime and anywhere
-  **Power-over-Ethernet** IEEE 802.3 af for simplified connection
-  **Storage** for up to 30 days
